# Auth Code Search Plugin

Installation

1. Click the 'Add New' button in Plugin section of the Admin Dashboard and Upload the Plugin Zip
2. Activate the 'Auth Code Search' Plugin
3. Go the 'Permalinks' section in Admin Dashboard Settings

4. Hit Save to refresh the Permalink Structure

Admin Options

1. After the plugin has been activated, you will see the following new options in the Admin Dashboard

2. New Sports cards can added and existing cards can be modified using these menu options

Usage

The plugin provides two short-codes than can be used in the Front-end Templates

```
// Search Single Card by Auth Code
[sports-cards-find]

// Search All cards by Set Name (pop report)
[sports-cards-find-by-set]
```

Note: The above short-codes can be used inside Page Builders or directly inside Page Templates.
